

# One Silver and One Bronze Medal from Seoul, South Korea

**Universiti Malaysia Perlis (UniMAP)** participated in the Seoul International Invention Fair (SIIF) 2009 held from 3 - 7 December 2009, at the Pacific Hall, COEX Seoul, South Korea. This yearly event is the biggest in Asia and is attended by researchers from countries such as Taiwan, Malaysia, Iran and others. This year's was the second time that UniMAP participated at SIIF with the inclusion of four research products entered for competition. The results: we won one silver through Dr. Ir. Salmah Husseinsyah's research product 'Coconut Shell Powder Particle Board'. She is from the School of Materials Engineering. Bronze was won by Abdul Haqi Ibrahim from the School of Environmental Engineering with his research product 'CS Brick'.

The victory at SIIF acts as a closure to the year 2009 which saw UniMAP researchers reaping a string of resounding success through their participation in international competitions in Switzerland, the United States of America, the United Kingdom, Germany and lastly in Korea. All the crowning glories point to the fact that UniMAP researchers are capable of producing quality research products. Their victories promote the good name of the university in the international arena.
