Synergy Team from UTAR Wins Schneider Electric's University Challenge

Schneider Electric has announced the winners of its annual University Challenge themed "Go Green in Malaysia". Among the five finalists, Synergy team from Universiti Tunku Abdul Rahman (UTAR) was awarded the grand prize, a RM15,000 bursary and the Schneider Electric University Challenge Trophy. The Sedaya Green team from UCSI University clinched the second runner-up title while the Naturalistic team from Universiti Kebangsaan Malaysia came in third. The five finalist team prototypes focused on practical energy-efficient solutions for building facilities and environment. Schneider Electric (Malaysia) country president Peter Cave said that the challenge managed to create a deeper awareness and understanding of energy efficient solutions and sustainable practises among college and university students.
