

# Report on CADME 2007

On October 25-26, 2007, the School of Mechatronics Engineering had successfully held an international conference on applications and design in mechanical engineering (CADME 2007). The conference, which was held at Putra Brasmana Hotel, Kuala Perlis, was officially launched by Prof Ali Yeon Md. Shakaff, Deputy Vice Chancellor (Academic and International Affairs) Universiti Malaysia Perlis. Three prominent speakers were invited to talk about their current research work. The speakers were Mr Chui Thiam Yaw, a consultant from the industry, Prof. Dr Ahmad Yusoff Hassan, from Universiti Sains Malaysia, Pulau Pinang and Prof Khaw Sien, a visiting professor at Universiti

Malaysia Perlis. Thirty presentation sessions were scheduled at the two-day conference. Presentations covered all aspects of research, especially in the field of design and applications in mechanical engineering. One-hundred and seventy working papers were accepted for presentation at the scheduled sessions. The breakdown of papers at the conference are as follows: Malaysia (75), Iran (56), India (27), Kuwait (2), and one each from Libya, Nigeria, Jordan, Czech Republic, South Korea, Indonesia and Saudi Arabia. The conference received sponsorships of about RM20,000 from several local companies. The companies are Solution Engineering SB, Magnibridge SB, Design Technology Alliance (M) SB, Idea Bumi Enterprise, Lotus Scientific (M) SB, ETD Makmur (M) SB and a few others.
