

This year is a windfall year for UniMAP conferences. Various schools have been invited by outside counterparts, to host a variety of conferences, ranging from bio-systems to power electrical systems.

This is another testimony of the acceptance of UniMAP by other established universities. An important point not to be overlooked is the hard work of the members of organizing committees besides teaching and project supervision.

For more information on the conferences, please visit our website: www.unimap.edu.my
