

Bio-Malaysia 2007: Innovation For Quality of Life

27 - 30 December 2007

The Ministry of Science, Technology and Innovation (MOSTI) had invited UniMAP for the second time to showcase its research products at the BioMalaysia 2007 Exhibition, which took place at the Putra World Trade Centre (PWTC), Kuala Lumpur on 27-30 December 2007.

The BioMalaysia 2007 Exhibition and Conference is a platform for researchers, business people and other stakeholders to interact and widen the cooperation and networking with foreign participants and experts, in order to facilitate and promote the Malaysian biotechnology industry at international levels. Y.B. Minister of Science, Technology and Innovation had officiated the opening of the congregation while the closing was by Y.A.B. Prime Minister of Malaysia. Some of the showcased products were 'Egg Shell As An Absorbent For Cooking Oil Waste' (Dr Supri A. Ghani), 'Kayan 1: A Particle Board From Rice Husk' (En Suhardy Daud) and 'Food Supplement Based On Virgin Coconut Oil' (Dr Ir Suryadiansyah). On the whole, UniMAP's exhibition booth had had a very encouraging response from many researchers as well as agencies, both local and foreign.
