

# National Metallurgical Conference – NMC 2006

The National Metallurgical Conference 2006-NMC 2006 organized by the school of Material Engineering, was held at Putra Palace, Kangar, on 9 and 10th December 2006. This two day conference was launched by Yang Berbahagia En. Mohd Sofi Osman (Managing Director AMD Export Sdn. Bhd.) who is also a member of the university's Board of Directors. Primarily, the objective of having this conference was to provide a platform for sharing ideas and experiences related to metallurgy. Besides, it helped to foster and strengthen cooperation among academicians, researchers, scientists and practitioners related to this field.

The conference received good response and was considered a great success with numerous researchers from both public and private institutions participating. Among them were UKM, USM, UTM, KUTKM, KUiTTHO, UiTM, UniKL-MSI and UniKL-MFI. There were also participations from GLC's such as SIRIM, MINT and TNB as well as from private institutions such as Motorola and Perwaja. This mixture created a lively environment as well as good natured discussions. A total of 70 research findings were presented orally or in poster form.
