

PEMBANGUNAN KAMPUS

Pembangunan Kampus Tetap

Di dalam Rancangan Malaysia Ke-9 , pembangunan Kampus Tetap UniMAP memberi tumpuan kepada Kampus Ulu Pauh seluas 1028 ekar di mana hampir 60% kawasan tapak akan dibangunkan sehingga 2010. Manakala rancangan pembangunan Kampus Sungai Chuchuh dengan keluasan 253 ekar akan dibangunkan menjelang Rancangan Malaysia Ke-10.

Unit Pengurusan Projek Kampus Tetap UniMAP ditubuhkan pada Januari 2007 bagi menyelaras dan memantau pelaksanaan projek-projek pembinaan di tapak. Unit ini telah menggantikan perkhidmatan PMC yang telah ditamatkan pada November 2006. Unit ini terdiri daripada kakitangan teknikal yang berpengalaman dan mahir dalam pelbagai disiplin bagi memastikan projek-projek dapat dilaksanakan dengan jaya di dalam Rancangan Malaysia Ke-9. Peranan Unit ini sebagai pemantau dan pengaudit kepada projek-projek yang sedang dan akan dilaksanakan mengikut perancangan, spesifikasi serta kualiti yang memenuhi piawaian yang diluluskan Kerajaan.

Dalam tahun 2007, Projek Pakej 2 mula dilancarkan pada Februari 2007 melibatkan pembinaan 2 buah pusat pengajian iaitu Pusat Pengajian Kejuruteraan Pembuatan dan Pusat Pengajian Kejuruteraan Mekatronik. Projek yang bernilai RM 115 Juta ini merupakan projek terbesar dalam tahun 2007. Ianya dijangka siap menjelang tahun 2009. Projek Pakej-2 menyediakan ruang-ruang pentadbiran dan akademik, serta dilengkapi dengan 46 buah makmal/bengkel bagi kedua-dua pusat pengajian. Selain itu, kemudahan Infrastruktur dibangunkan di dalam Pakej ini iaitu pembinaan rangkaian jalan raya, sistem bekalan air, menara tangki air, sistem saliran dan juga sistem pembentungan bagi menampung keperluan-keperluan projek-projek Rancangan Malaysia Ke-9. Sehingga 30 Disember 2007, Projek Pakej 2 telahpun siap 30% dan sebanyak RM 40 Juta telah dibelanjakan untuk projek ini.

CAMPUS DEVELOPMENT

The Development Of Permanent Campus

In the Ninth Malaysian Plan, the development of UniMAP's permanent campus focuses on the area of Ulu Pauh Campus covering 1028 acres in which 60% site area will be developed until 2010. In the meantime, the planned development of Sungai Chuchuh Campus with the capacity of 253 acres will be developed in tandem with the Tenth Malaysian Plan.

Permanent Campus Project Supervision Management Unit was created in January 2007 to coordinate and supervise the execution of construction projects at the site. This unit has replaced the service of PMC which was terminated in November 2006. The unit comprises of technical staffs who are experienced and skilled in various disciplines to ensure the projects will be completed are done successfully within the Ninth Malaysian Plan. The role of this unit, the observer and auditor to the upcoming and projects in progress so as to comply with the plan, specifications and qualities set by the government.

In February 2007, 2nd Package Project was launched involving the construction of two learning centres namely the School of Manufacturing Engineering and School of Mechatronic Engineering. The project which is worth RM 115 Million is the largest project in 2007. It is projected to be completed by the year 2009. The 2nd Package Project provides administration and academic spaces and equipped with 46 laboratories / workshop for both learning centres. Besides that, infrastructure such as road, drainage, water supply and a tower for water tank will be developed in this Package with the addition of sanitary system in coping with the Ninth Malaysian Plan project. Until the 30th December 2007, the 2nd Package Project is already 30% completed and RM40 Million has been spent for the project.

In planning the project, the unit has solved almost all of the scopes that was halted since 2006 whereby 15 out of 16

PEMBANGUNAN KAMPUS

Di dalam projek perancangan pula, unit berkenaan telah menyelesaikan hampir keseluruhan skop-skop projek yang masih tergendala sejak 2006 lagi di mana sebanyak 15 daripada 16 bilangan projek Rancangan Malaysia Ke-9 telah mendapat kelulusan Kementerian Pengajian Tinggi Malaysia dan Unit Perancangan Ekonomi. Sepanjang 2007, rekabentuk konsep giat dilaksanakan oleh perunding Arkitek terutama di dalam Projek Pakej 3 dan Pakej 4. Projek Pakej 3 melibatkan kerja-kerja tanah dan pembinaan bangunan Perpustakaan, Pusat Pengajian Kejuruteraan

Bahan, Pusat Islam, Jabatan Pembangunan, Jabatan Hal Ehwal Pelajar dan Alumni, Kompleks Dewan Kuliah, Gelanggang Sukan dan Dewan Serbaguna. Manakala Pakej 4 melibatkan pembinaan Jabatan Canselori, Pusat Pengajian Kejuruteraan Mikroelektronik dan Pusat Pengurusan Projek Kampus Tetap sendiri manakala Projek Pakej 4 akan dikendalikan oleh Jabatan Kerja Raya. Semua projek-projek di dalam Rancangan Malaysia Ke-9 akan mula dilaksanakan pada tahun 2008.

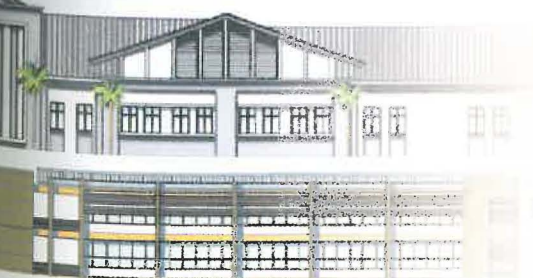

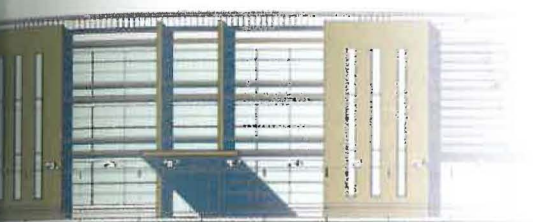

CAMPUS DEVELOPMENT

projects from the Ninth Malaysian Plan were approved by Ministry of Higher Education Malaysia and Economic Development Unit. Throughout 2007, the concept design were done by Architect consultants especially in the 3rd Package and 4th Package Projects. The 3rd package involves land works and the construction of the Library building, School of Material Engineering, Islamic Centre, Department of Development, Student Affairs and Alumni Department, Lecture Hall Complex, Sport and Multi

Purpose Hall. On the other hand the 4th Package is responsible for the construction of the Chancellory, Study School of Microelectronic Engineering and Engineering Centre. The 3rd package will be handled by Permanent Campus Project Supervision Management Unit itself but the 4th Package will be handle by the Jabatan Kerja Raya. All the projects in the Ninth Malaysian Plan will commence in 2008.
